

Good Morning Rory

Hi Rory, my name is Tonya and I am a wife and mother of four beautiful children. We are a family filled with love and would be honored to give one of your puppies a new home and new beginning.

Let me start by saying how honorable it is that you are rescuing all these animals that have been left to survive on their own or in a bad situation. You are an angel and I am so glad to hear that you have put together this animal rescue program. I read all the info on your website and have to say I'm so impressed with it all and the fact you are also a trainer is a big help in deciding on a new member for our family.

I was looking at some of the puppies you have for adoption in the Vancouver area and was very excited to see all the cute chihuahuas. The one I am most interested in is named Shasta. I live in the Port Coquitlam area and think she would love it here.

Thank you for being an angel to these animals.

Sincerely,

Tonya
