

Hi Rory,

We are so thankful that you are open to an overnighter with Crissy since David has been allergic to dogs in the past. Being she is a poodle we are very hopeful David won't be affected. We are going to take your advice and give Crissy a bath and have her with us for a couple days so David will know for sure if he has an allergic reaction or not. Thanks for understanding Rory.

I've been doing a lot of reading about your organization Rory and the critically important work you do for animals. My daughters and I are vegetarians and do what we can to help creatures big and small. What you do is amazing. It is obviously your life. Incredible. Thank you so much.

Renaë
