

Hello Rocky Mountain Animal Rescue!

I just checked out your website and was blown away by the great work you do for so many different types of animals in so many places around the world! I am with Meximutt in Puerto Vallarta, Mexico.

Money is the biggest road block to helping more dogs! We try to find people flying back to Canada who is willing to take a dog with them and help with funding the flight. It's so much cheaper to fly one dog out of Mexico with a traveller at \$150, compared to \$400 to fly a dog unaccompanied!

With your permission I would like to pass your email address to SPCA de Puerto Vallarta. This is the rescue group Chelsea and I work with in PV. The reason for this is we can house the dogs we fly in from PV but all the dogs we fly in are small. Maybe in a year from now we will have some funding to help fly out some of the larger dogs. Also with your permission I would like to add your link to my website.

Thank you soo much!

Danielle
