

Hello,

I am very interested in adopting from you. We have a female black lab Lily and a Chihuahua cross, Tito, who was one of the California dogs brought to Edmonton by the Edmonton Humane Society. He has been in our home for almost 2 years now and I love him to pieces.

I have a passion for animals, all shapes and sizes. Tito was very fearful at first, and has since come a long way. I would like to do the same and help another little guy! I also want to say that I appreciate everything you do for the dogs in Mexico and the US. Please keep bringing them to Canada where they can find good, loving homes.

Thank you.

Samantha
